2020

Animas Mosquito Control District

Subject: 'No-Spray' Request Application

APPLICANT MUST BE THE LANDOWNER OR DEDICATED PROPERTY AGENT

The Animas Mosquito Control District (AMCD) maintains a list of District residents who request a **"Limited shut-off" of mosquito adulticiding (fogging)**. This list represents a "good faith effort" by the District to shut off truck-mounted low volume aerial equipment at property line of registered property.

- ❖ **This request will be rendered null and void for the remainder of the active mosquito season (to be renewed the next season) if WNV or any other arbovirus/pathogen transmitted by mosquitoes is detected in the area.** 'No-Spray' residents would be notified if this was the case.

Note: This limited shut-off of adult mosquito fogging does not imply that AMCD will not inspect and implement larviciding for immature mosquito larvae in their aquatic habitats, if it is necessary to do so. It is a limited agreement not to spray for the adult mosquitoes.

THIS REQUEST MUST BE RENEWED ANNUALLY

Reason for Request (please indicate one):

Beekeeper Medical/Health Organic Farmer Other Concerns (please explain)

Please print and sign in the designated areas below and return to be included on the 2020 'No Spray' List.

Resident Printed Name: _____

Date: _____

Resident Signature: _____

Phone #: _____

'No Spray' Address/Description: _____

Mailing Address (If Different): _____

Email Address: _____

Sincerely,

Pat Kelley

AMCD Manager
