IV. Guest Presentation

A. Loren updated the board on the progress of the new building and property. Subgrade is going in for asphalt. Took the liberty of choosing Matt Leader for the asphalt installation. Steve McCormick/Twisted Creek will be coming in with a flight crew to shoot grades to make sure everything is good and then the asphalt should be go in next week after Matt completes final grade and compaction. Trautner recommended 5 inches of 3 inch and 4 inches $\frac{3}{4}$ of sub-base. There are 196 tons of asphalt going in. The C.R. 252 entrance had to be moved 3 feet to keep it away from the fire hydrant that Animas Water put in. Do we want two, two-inch lifts or one four-inch lift. Discussion followed. *Board unanimously agreed to go with the two, two-inch lifts.

B. Still waiting on Advanced Fire to complete the fire suppression system. Philip Boyle is the head man, but he passed this to John Lewis. This should have been done in May. Having a hard time getting hold of anyone to get them out to finish. Will contact Attorney if necessary. If they can get this done, completion could be at the end of January. The fence should be installed in December.

Loren left the meeting.

V. Unfinished Business.
